- i. Secretary Hess: I want to give you guys an overall view of our goals and progress. The student community relations commission is composed of city officials and students who give recommendations to the city council. The goals of the commission were accessibility, supporting local businesses, and working to make sure people are following safety guidelines. We've offered support for the bartender training as well as insight to the DEI recommendations. One of the partnerships we've been working on has been from working to make things easier for low income students who may not be able to afford off campus housing and introduce them to nontraditional students who may be able to offer a place to live. We've also been working with student organizations to support locally owned businesses. they're also working with students to decorate uptown for the holidays. The farmers market has been a huge success--we've given out thousands of masks.

- d. Motion passes
 - e. Senator Elghazawi: I see no reason to oppose this
 - f. Motion to end debate and call to question

 - c. Secretary Bosworth: the committee has been operating under our own standing rules rather than the bylaws so this is meant to update the bylaws
 - d. Senator Chenkus: what kind oversight does ASG have over f&a over things such as sanctions? If none, what kind of things would F&A go through to eliminate bias?
 - e. Secretary Bosworth: we do not currently have formal oversight protocols but because our committee is not composed of only student senators, it already works as an unbiased system
 - f. Senator Maldonado: this is pretty straight forward
 - g. Senator Kravitz: I think Senator Chenkus' concern is legitimate, but I don't think there's a reason for this to not pass in light of that
 - h. Speaker Pro Tempore Villanueva: I don't see the oversight concerns as a reason not to pass this. I would be willing to work with the Secretaries to make sure there is oversight of some kind
 - i. Senator Elghazawi motions to call to question and approved by unanimous consent

 - k. Legislation passes
- XI. New Business Item B: SR202107 A Resolution to Support the President D.E.I Task Force Recommendations

 - b. Senator Wu: how will this legislation ensure there is clear and effective communication between administrators and students?
 - c. Senator Stephens: this resolution is important because it is the first step at guaranteeing access back at the tables where administrators are discussing issues, especially since students need to have a voice in those spaces
 - d. Senator Wu: as someone who served on the student task force, I would like to emphasize the importance to ensure that we can rebuild our bridges between us and administration
 - e. Senator Elghazawi: this is a very important resolution to reiterate that students are committed to DEI.
 - f. Motion to end debate and call to question
 - g. Motion is seconded
 - h. Motion passes
 - i. Resolution passes with unanimous consent

XII. New Business Item C: SR202108 A Resolution to Support the Miami University Institute for Food Farm

- a. Senator Doepke: there are important things I want to highlight about the farm. It offers a lot of academic benefits from classes, co-majors, extracurriculars, and research. It produces a lot of food for community members, dining services, and other Ohio organizations. Additionally, the farm promotes sustainability on campus. CAS provides two full-time salaried farm positions, and the farm is otherwise self sufficient but has grants expiring in December. We're asking CAS to continue to fund these two positions and that Miami will show a longer term commitment
- b. Secretary South: how will ASG assist the farm
- c. Senator Doepke: it would be a continued partnership between I&S to connect the farm to outside resources
- d. Senator Stack: in what way would ASG take part in the next step in the university senate?
- e. Senator Doepke: admin really wants a coalition of students supporting this resolution when they bring it to university senate
- f. Senator Capriolo: this resolution and the research is so important, and I don't see any reason not to pass this legislation
- g. Secretary Sutton: I support this especially as a KNH student. The department depends on this farm so I think it's very important
- h. Senator Gates: I'm also in an IES class that depends on this. I've spoken to Senator Doepke about this and I think it will do a lot for Miami
- i. Senator Stack: this is so important to Miami's climate efforts and this is one of Miami's hidden gems
- j. Motion to call to question by unanimous consent
- k. Motion is seconded
- l. Motion passes
- m. Legislation passes by unanimous consent

Present: Sen. Manley, Sen. Chima, Sen. Brown

Excused: Pro-tempore Villanueva

Unexcused: Sen. Storer

Guests: Sen. Elghazawi

Agenda

[Fill this out](#)

Special Election - Sen. Manley as lead

Omar: Special elections can have 5 candidates for one open seat, even if they are of the same senator type (i.e. 2 off-campus, etc). Last year, we had 3 open at large positions and had 10 applicants, but could have had up to 15. Last year we introduced legislation to define the interpretation more so if 1 open seats, still 5. 2 open seats, 6 candidates, 3 open, 7 candidates, etc.

Chima: how do we narrow the field?

Murphy: Vote by the committee using the answers from the packet!

Chima: Like the initiative, saves time and allows us to bring forward the best candidates

Brown: agreed,

Manley: if we do it, let's define the ways the committee will evaluate the candidates in the whereas clauses

Bias training for Judicial council? - Sen. Brown as lead

Manley: Is Judicial as needed?

Murphy: Yep!

Chima: I think it's a good idea, promote DEI

Agenda

Murphy: general satisfaction form!

Diversity Data [Legislation](#)

Stein: is there a response to the steering form?

Murphy: Yes, it's in the form responses.

Villanueva: does James know about this legislation?

Murphy: yes, he is just looking for student support.

Stein: I wish the admin would have sponsored this, but it's ultimately going to be done so.

Villanueva: the title says this is a statement?

Murphy: it'll be a resolution

Villanueva: should the "Therefore it be resolved" part have different wording?

Murphy: Yeah, this is something I can bring up with him.

Stein: Capitalization issue.

Elghazawi: change "Jakin Wu" to something else

Villanueva: 2nd to last further it be resolved, should it signify that it's a sign of student support?

Murphy: fine as ASG support because there wasn't student support

Danielle: "major race and ethnic groups?"

Murphy: I had that convo with him last week, he will be working with Gwen Fears to determine what races and ethnic groups should be displayed.

Proctorio resubmission

Murphy: Provost Wanko stated no on sponsors because it would hinder the initiative. Would also be worth seeing if faculty response would be useful.

Villanueva: are the specific edits made reflected in last week's minutes?

Murphy: yeah, the emotional language was taken out. Also a change to whereas clauses.

Elghazawi: sources for these claims?

Murphy: I believe it was in the feedback. It was included in the recommendations.

Gates: I talked about the legislation at a dinner, the faculty response was interesting. Finding the right support will be diverse.

Stein: same legislation from last week?

Murphy: Yes. Anticipate it coming to the floor this coming Tuesday.

Murphy: might be worth changing the language from "investigation" to "reevaluating" or similar.

Elghazawi: Sources for more clauses, good for floor otherwise.

Vote: 2-0-0 with edits

Religious Accommodation Policy

Chima: some legislators said they wouldn't be willing to sponsor this.

Elghazawi: last whereas clause seems bloated, but nitpicky. Certain part doesn't need to be there.

Stein: Agreed.

Murphy: last part is also unnecessary.

Elghazawi: Agreed.

Villanueva: second whereas clause can be split into two.

Elghazawi: instances of 'should' should be changed to something else.

Murphy: some reordering could happen as well. Some of them could be included in an appendix for formal recommendations.

Villanueva: shortest whereas clauses on the first page can be combined.

Dining Halls

Murphy: N/A on a response on the submission form, could indicate that admin is on board.

Villanueva: curious to know why Director for the Institute for Food department isn't sitting on this committee.

Murphy: Brent Mason and Brian are both in favor of this according to Sidra.

Stein: should say "shall support the creation of" instead of us creating it.

Murphy: I think shall create makes more sense as it'll be chaired by a member of ASG.

Villanueva: it depends on the conversations had with administration, whether we're creating it or whether it's being created by admin and we support it instead.

Murphy: I added a comment on it. Should this also be a bylaw change?

Villanueva: I agree. Could be 4 bylaw changes, so something we would have to change.

Stein: I feel D&I is more necessary than Safety.

Murphy: Safety is for allergy reasons.

Stein: Nevermind, I misread it.

Gates: I don't think D&I being involved is necessarily a bad thing.

Villanueva: I think that's where DAC comes in.

Stein: it's legislation that's also being worked on as well.

Murphy: need to be nitpicky, helps further define the Safety position. Next semester or bylaw now?

Elghazawi: Bylaw now.

Stein: later, but I don't care much.

Murphy: I'll ask her and see what she thinks.

2. Secretary Announcements

- a. I'm making a meeting on Sunday, November 29th to do a final recap of the semester
 - i. If you cannot make it, don't worry - please make sure this is reflected on the calendar invitation
- b. Also, any thoughts on what we'd need funding for in the spring?
 - i. Cameron: want to have money for posters? EcoReps would do posters in the residence halls and magnets from Butler County.
 - ii. Danielle: yeah if we request it, then we will find something to use it for.
 - iii. Harry: depending on Hueston Woods busing route, we might need ASG money for that. Could be something - will talk later this meeting.
 - iv. Lauren: Earth Week is in April of next semester. ASG doesn't normally do anything, but we could. Anything to think of relating to that.
 1. Advertisement or food for in person events
 - v. Cameron: can we not use it on food?
 - vi. Lauren: ASG is exempt from that rule. Cheapest option. Sustainability Forum. Cookies from Kroger not Insomnia.
 - vii. Allison: funds from ASG for SSC Earth Week advertising, because under bylaws. Include in poster budget.
- c. Any infrastructure projects?
 - i. Danielle ask Christina Martin?
 - ii. Danielle: slipped my mind this week, will send her an email tonight

- d. Check in on what everyone is working on (outside of these action items)
 - i. Grace and Dog Park?
 - 1. Grace: Nothing yet, Sidra is still working with Paws for a Cause.
 - ii. Harry and Hueston Woods access?
 - 1. Harry: [notes](#). We can go through MAP, or Western, or make new Org. I will be focusing on Miller Transportation, which is one of two charter companies we'd focus on for an alternative busing solution. I'll be contacting them. The student with the idea is contacting another. The survey has 76 respondents. Going to reach out to Oxford, Faculty, staff, off-campus secretary and put in groups. Don't anticipate making progress this semester, because it's November 15th. Push for in the spring.
 - iii. Harry and Grace on-campus accessibility audit?
 - 1. Grace, how was Christina Martin at On-Campus?
 - a. Grace: Talked about Accessibility Audit coming up. Making sure SDAC is no board and help provide training to show what to look for.
 - 2. Grace: Trey meeting: Audit closer to March because walking outside. Looking at handicap door buttons for whether they work, main doors accessible or have to go to a side entrance, no signage for where elevator is at the Rec, staircases too steep?
 - 3. Harry: big focus on residence halls
 - 4. Grace: prioritization of certain issues. Accessible entrances and elevators wants accomplished in next two years; others have extended timeline.
 - 5. Allison: pick back up in spring semester
 - a. Steps for Depth: waiting on Cody Powell as he talked internally. Likely something to add to the Accessibility Audit.
- e. Lauren's resignation:
 - i. Make sure everything with Lauren's name on it below gets fully covered by someone else
 - ii. Lauren: resigning from ASG for personal reasons. Very busy bee. Benefit of self and organization to take step back. Have talked to Alia about being

point for Myaamia garden because she is caught up. Several people on SUP. I will still be involved in these initiatives, so reach out with any questions and I will be in meetings to work on them. They have been my babies since last semester. Resignation in agenda.

3. Old Business

a. IFF [Resolution](#) Passed!!

i. Next Steps:

1. Lauren: Ilaria, interim director, is meeting with Jonathan Levy and CAS Dean on Thursday this week to discuss the budget of the IFF. This will be the decision point. This threw a wrench in taking this to USenate, because that is a longer process and the meeting isn't until December. Cathy Wagner had set it up to do our best to avoid the Provost burying this initiative, want a large student push behind it because saving two jobs and immense academic/research/produce benefits. We were going to take it to USenate and Board of Trustees if it went through that. Switched to a petition, I emailed someone I know in the Miami Student who then emailed her people. Going to contact her again today to see if someone will pickup the story. Otherwise, I will crank out an Op-Ed, but that isn't until Friday. Use TMS as a platform to get petition out there and have people sign. Kind of already have one with the Google Form for testimonials. Ilaria sent those responses and a proposal and our legislation to the Dean of CAS for review. Then we are hoping to still push legislation through USenate to expand the contracts (long shot because all staff are one year contracts). If they do get cut, drafting legislation to find a way to continue funding the farm in other ways. Entire point is because a lot of their grants have expired - want to give them time to find extra funding. Looking for grants can be difficult.
2. Lauren: Still doing this. Will send message to get I&S people added to the GroupMe.
3. Allison: I have asked for time on the Sustainability Committee agenda on Tuesday to get a final sense of Thursday's meeting and

to see if the PCLC has any numbers/\$ calculations for the Farm's involvement in offsets.

4. Alia: what is USenate?
 5. Lauren: like ASG but for faculty, so they do things on behalf of the University and refer things to BoT
- ii. Lauren to continue working on this with Allison updating this group?
- b. Analysis of single use items on campus (will tackle one item at a time) to find more wholistically sustainable alternatives
- i. Where is this research at? Did Brent respond to the email with questions?
 1. Lauren: no response yet. Email tag. If he doesn't respond to Thursday's follow up, I will give him a call.
 - ii. Who is taking point on this?
 1. Cameron: can volunteer, but busy and want a co-chair.
 2. Alia: if no one else, I want to be involved, research is going well but want to do with someone else.
 3. Alia and Cameron
 - iii. Questions:
 1. Cameron: goal? Transform everything from plastic to eco-friendly or shooting for 50%?
 2. Lauren: my goal is to get something better than what we are currently using. Idea is to get something (depends on group and how deep research goes)...look at compostable or paper option. Strawless cups. Not just replacing straws with strawless lid but also making the lid compostable. Pay attention to economics of it all. Try to get most eco-friendly possible right now to prevent doing the same project later. I'll still be working on this from Green Team side, so if you want help leading stuff I can.
 3. Allison: when Lauren gets a response from Brent, update the wide group and the SUP group. Then email or brief meeting to discuss next steps since research can happen over break.
- c. Myaamia Demonstration Garden
- i. Where is this at? How did the meeting with Cody Powell go?
 1. Alia: was in the meeting but Lauren do her thing. Cody and Cara. Concern about point of contact for the garden since students come

and go. Lauren and I are reaching out to people who are interested in heading this project staff/faculty side. There is a garden behind Boyd Hall on Western that is not being used and is fenced. Close to greenhouse. Cody confirmed we could use it. Next step with the space is going to see it.

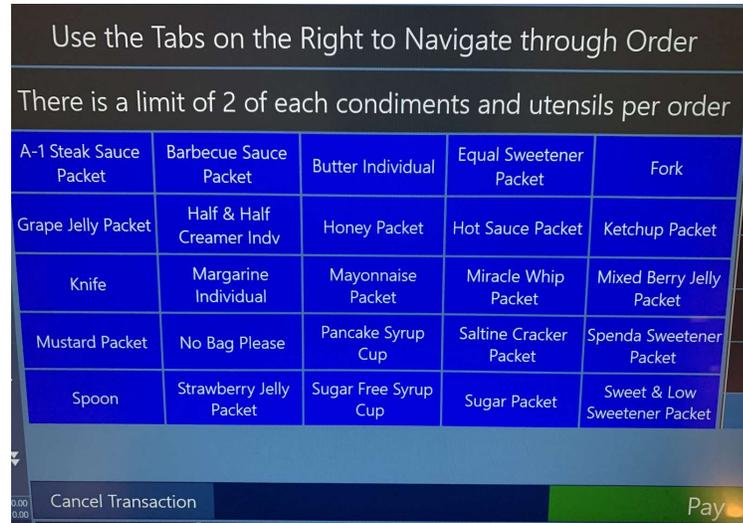

2. Lauren: covered it. Existing garden is extra helpful because don't need to spend grant money on fencing and has infrastructure for water. Perfect. They already do stuff.
 3. Harry: can I be added to this initiative? I am a Senator for these halls.
 4. Alia: yeah of course!
 5. Alia: in terms of contacts...someone in family is Suzi to see if she knows anyone interested. Will send her an email, she knows all IES people.
 6. Lauren: Myaamia will help with what plants go in it and doing workshops for educational tool. They are on the receiving end of the initiative. We need people to provide managerial support. My first thought was IES and Biology/Botany. Don't expect too difficult. Student run. Pretty self sufficient, especially if grant money for sprinklers. Yes reach out to Suzi, Alia. Then for funding, we are going to work over J-term to figure out which grants to move forward with (couple due early next year).
 - ii. Alia taking over as point? - Yes
- d. SSC and I&S Minutes as GHM article
 - i. Has been submitted to their Editor in Chief
 - ii. Nathaniel: haven't heard from Helena. Sofia had messaged me yesterday. Expected to go out Tuesday.
 - e. Residence hall recycling signage

- i.
- ii. Allison: quick summary: this is the first draft from Butler County and it is almost identical to what we asked for. Looking to meet with Miami stakeholders early this week and to add a Yogurt Containers line to the Don't side.
- f. Tracking other schools' initiatives and grants ([College Research](#))
 - i. Cameron, update?
 - ii. Cameron: emailed Penn State recycling on Monday, no response yet. Hopefully they do respond. Also reached out to the Penn State EcoReps, no response. Need to get to them because Green To Go system.
 - iii. Allison: send me the info so I can ask the PSU EcoReps from the Miami EcoReps account.
 - iv. Next steps or action steps?

1. Cameron: hope they respond with really good info for how they got started and I will turn around and do that here (Recycling coordinator?). Ideally find a way to compost food scraps and get the compostable bowls and such into a composting system. Procure state funding? Sit down and figure out goal. Going to reach out to Adam Sizemore to see where he is open to talk about composting. What is within reason. Food scraps is pretty easy.
- g. AEPi and Sigma Chi recycling
 - i. Alia met with AEPi on Friday
 1. Alia: wasn't too engaging. Herschel was able to give more information about structure of recycling (Annex is an apartment so it does). Main house doesn't have recycling so individuals can't. Refreshed him on the presentation (he had received it). Reminded him about who to contact to get bins - going to send a follow up to see if he did contact Rumpke. If questions, ask Alia. Meeting with Will from Sigma Chi on Monday to talk about recycling but he said people had already watched the video presentation. Make sure no questions and keep energy up and what is/isn't recyclable. Graphics?
 2. Allison: send you Rumpke and EcoReps ones
 - ii. Nicole, talk to the house manager of TKE?
 1. Nicole: they have recycling in the kitchen for the chefs. More effective to see in person to talk because more responsive.
- h. Magnet/flyer distribution off campus! (wear a mask)
 - i. Lauren, how were the rest of the CKC Rentals? - still have to do the Gaslight (easiest). Not able to get into some apartments, could connect for a time to let her in or if CKC wants to keep some at their office.
 - i. Individual ketchup packets, silverware, and napkins automatically - should just be by request
 - i. Brent said there'd be new buttons but we haven't seen them via Harry:

1.

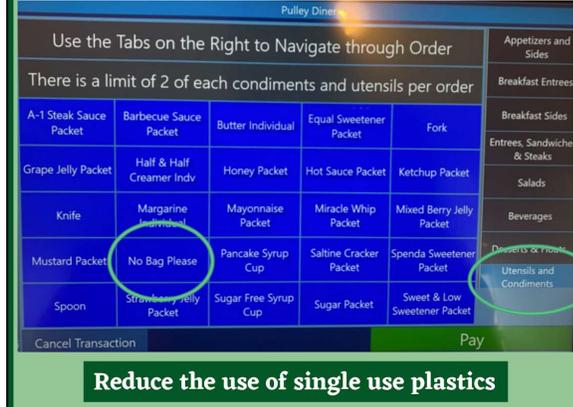

- ii. Is the “limit” what he was talking about?
 1. Cameron: Brent said IT couldn’t do Pop-up screen. Did put a no utensils/condiments button on same screen.
 2. Harry: will check to see if the button is added, try taking a pic on Tuesday.
 3. Cameron: I will ask Brent if the change isn’t showing up or if we were confused.
- iii. Graphic for “No Bag Please”:
